

# SICK OF PHONY HEALTH EXPERTS?

**MAGAZINE  
MEDIA**  
**Better. Believe It.**

When searching for real health advice, you shouldn't have to trust your gut. Trust magazine brands instead.

Whether in print, online, on mobile or video, people believe magazine media more than any other. No wonder it's more engaging and drives more healthcare and pharmaceutical actions. Magazines have expertly researched content and a safe environment that makes everyone feel a whole lot better.
